Sales Solve ALL Problems!

Having started, sold, or currently operating multiple businesses. I learned that sales play a pivotal role in business success as it generates revenue, enabling companies to cover costs, invest in growth, and achieve profitability. It fosters customer relationships, builds brand awareness, and spurs innovation through feedback. Sales also optimize resource allocation, adapt to market dynamics, and ensure sustainability, making it a vital cornerstone of any thriving business.

Why Choose Me?

Hi, my name is Malcolm Evans I started Sales Accent in 2013. Initially, I wanted to just exit the corporate world and create a working lifestyle for myself. Then I got the bug and had to share my experiences. Starting my career in electrical controls and automation I put down my screwdrivers and test equipment and moved firstly into sales, marketing management, and then global business program management. I have had 5 separate careers and with that comes insight. I now provide coaching services and tools to individuals and companies that need to improve performance in sales, services, and operations by developing their key assets, i.e. their valued employees..

Why choose me? I provide validated and proven content to key individuals and teams. - I get what they want to do,

How? - I have wanted it and done it for myself. oh, and I am *very good* at it..

Skills Development For Teams and Individuals

Learning

It's a Diverse World

The world is diverse; it is made up of people who have different backgrounds, traditions, and beliefs. A Diversity, equity, and inclusion (DEI) initiative is an important step towards creating a culture where every individual is acknowledged and supported, regardless of their differing background. It helps us to recognize the value of diverse voices, as well as other individual differences, such as gender, race, religion, ethnicity, or sexual orientation. Ultimately, a diverse workplace will lead to better innovation and success. Through inclusive language and leadership, everyone is encouraged to evolve both personally and professionally.

Many organizations are working towards fostering a workplace culture that is committed to DEI practices and ensuring that every voice is heard. The Diversity, Equity, and Inclusion course will provide participants with the tools to recognize social biases, respond to microaggressions, as well as provide resources to create a safe and welcoming work environment. With strong team commitment and courage, we can create a sense of belonging for *everyone*.

This course can be delivered as self-learning or as a facilitated workshop - Combining both is a perfect introduction to this important subject.
